Concept 3: Flat Brand Type - Cyber

PMAX

STRATEGY, MESSAGING & VISUAL DIRECTION

FOCUS: Testing type and brand colors only to elicit response
FUNNEL STAGE: MOF/BOF
OUTPUT: Static images + Banner

Hypothesis: A bold, text-only Cyber lockup in brand colors will earn the highest thumb-stop in a crowded Cyber Week feed, because shoppers are scanning for deal signals and a clean, loud type treatment reads faster than product imagery.

Creative Summary: A flat, full-bleed brand-color background carries an oversized, high-contrast type stack that shouts Cyber deals with no imagery competing for attention. A short lease-to-own subhead and a clear CTA button sit underneath, converting urgency into a simple next step.

MESSAGING:
Headline: The deals won't wait. And now you don't have to.
Subhead: Lease-to-own on thousands of Cyber Week deals
CTA: Shop Cyber Deals Now
