Concept 4: Trusted

PMAX

STRATEGY, MESSAGING & VISUAL DIRECTION

FOCUS: lean on the volume of trusted reviews first, individual later
FUNNEL STAGE: TOF
OUTPUT: Static images

Hypothesis: Social proof from third-party reviews will beat brand-voiced creative on engagement with first-time prospects, because unfamiliarity with lease-to-own is the main trust barrier and a Trustpilot rating answers it faster than any claim we can make.

Creative Summary: A bold type headline sits over a graphic wall of real 5-star Trustpilot review cards, with star ratings and short customer quotes stacked to show volume at a glance. The Trustpilot rating and the Katapult logo anchor the frame, turning thousands of reviews into one clear signal that real shoppers trust Katapult.

MESSAGING:
Headline: Don't take our word for it.
SubHead: Real people, real reviews. There's a reason why thousands rate Katapult 5 stars.
CTA: See Why Shoppers Love Katapult.
