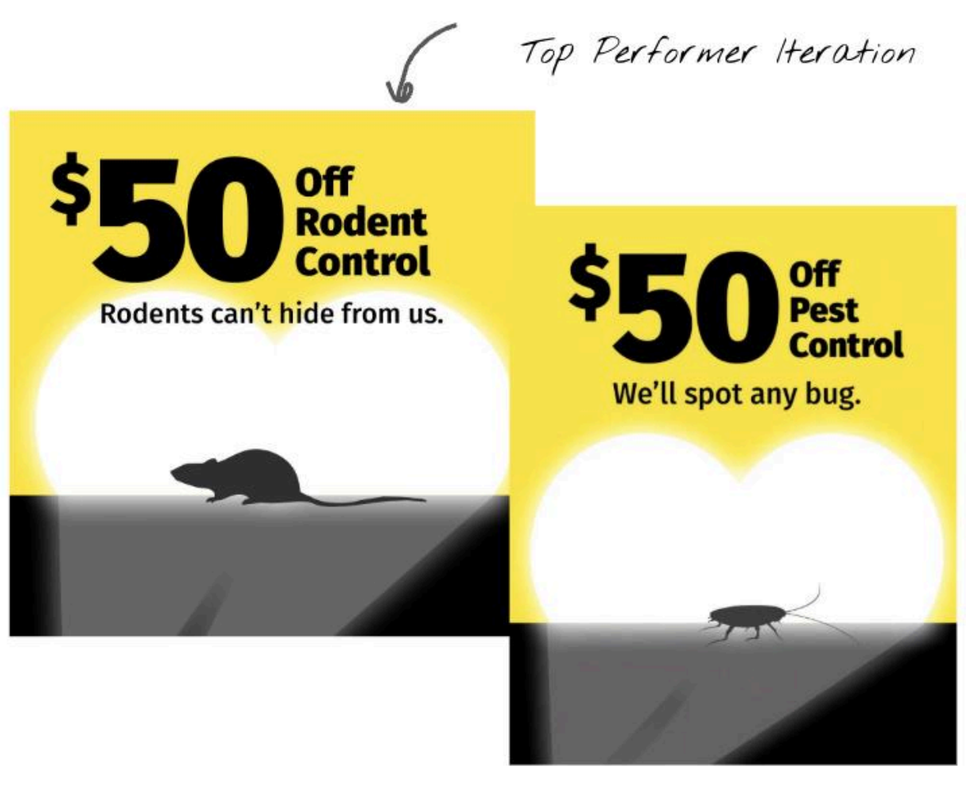
Concept Brief : BOF Iteration

Creative References



Project Overview

Summary A BOF iteration of the rodent/pest offer ad that keeps the bold promotional structure, oversized discount, and instantly recognizable spotlight visual. New versions expand the format using a different layout

- AUDIENCE PERSONA: Homeowners actively searching for pest control, especially those experiencing a current pest issue and motivated by a clear promotional offer.

Visual Details

- Use a bold yellow-and-black layout with the $50 OFF offer as the largest focal point and an oversized spotlight revealing the pest silhouette below. For Static, show the pest already caught in the beam; for MOBITE/HTML5 banners, animate the spotlight sweeping across the frame before landing on the pest and offer.

Creative Direction / Notes

- Ensure all copy is within Meta safe zones
- 5 Programmatic sizes + 2 Meta sizes x (2 Static/ 2 MOBITE iterations)
