Messaging Matrix

Overlapping Benefit	Video 1 Messaging	Video 2 Messaging	Combined Takeaway
Ease of use / simplicity	"With Roku's new self-service ad tool, it's easy to set up your own CTV campaigns."	"It's the easiest way to get your brand on a big screen." / "Doesn't have to be some confusing process."	Roku Ads Manager makes TV advertising feel simple, approachable, and self-serve.
Self-service control	"Set up your own CTV campaigns"	"It's a self-service platform that lets you run and optimize CTV campaigns."	Advertisers can independently launch and manage campaigns without needing traditional TV buying complexity.
Audience reach / scale	"Tap into Roku's leading scale"	"Meets your audience where they're already watching on Roku."	Roku offers meaningful audience access at scale, right where viewers already spend time.
Market leadership / credibility	"Nearly half of US TV streaming time is on Roku." / "Number one TV streaming platform in the US by hours streamed."	Implied through audience behavior on Roku and the "big screen" value of the platform	Roku's leadership gives advertisers confidence that they are advertising on a major, credible streaming platform.
Marketing mix expansion	"Expand your marketing mix."	"It's a great addition to your digital marketing mix."	Roku Ads Manager is positioned as a natural extension of existing digital and social advertising efforts.
Performance / impact	Implied through reach and scale	"It can make a huge impact."	Running CTV through Roku is framed as an impactful growth lever, not just a brand-awareness play.
TV accessibility for smaller advertisers	"Easy to set up your own campaigns"	"You already run social ads, but what about running ads on TV?"	Roku lowers the barrier to entry, making TV advertising feel possible for advertisers who normally stay in social/digital channels.

Sept & Oct Concepts

Sept Concept 1: TV Advertising in 3 Steps

Hypothesis: A branded explainer demo engages the user, but also dispels myths about the complexity of what it takes to launch an ad on ads manager. Bonus layer - budget fill in can limit the low-spender low-value leads as per Ben's comments

CREATIVE SUMMARY: A stylized Roku-branded Ads Manager screen moves through upload, target and launch, then cuts to the finished ad playing full screen on a living room TV. The animated UI is the hero, with no stock footage.

MEASURES OF SUCCESS:

- Signup-to-ad account rate

Copy:
Headline: Advertise on TV in 3 Simple Steps
Subhead: Set Your Budget. Pick Your Audience. Upload Your Content.
CTA: Start your first campaign

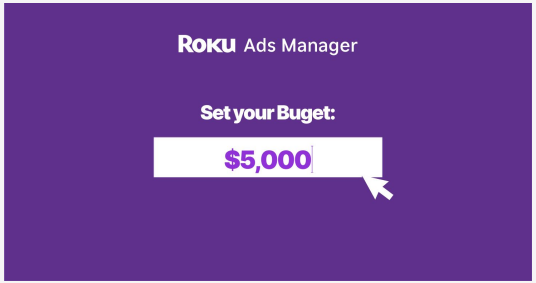

Steps:
Set your budget: target $5,000 on this first go NOT 500
Pick your audience: show a dropdown of interests and click an age
Upload: just show upload button and 0-100% status bar

Sept Concept 2: Sell It On Roku

Hypothesis:

Creative that leverages Roku's brand recognition and streaming leadership will help Roku Ads Manager feel more credible, familiar, and worth trying, driving both upper-funnel interest and lower-funnel action.

CREATIVE SUMMARY: This concept uses Roku's existing household recognition to sell its Ads Manager platform. By reframing Roku as not just a place people watch, but a place businesses can advertise, the work turns Roku's familiarity, scale, and leadership into a selling tool across the funnel.

AUDIENCE PERSONA: Main Street Marketer
Small business owners, operators, and marketers already running digital/social ads who want more reach but assume TV is too complicated.

TEST: Vertical Focused Imagery (Mainstreet Marketers)

MEASURES OF SUCCESS:

- **Primary KPIs:** Registrations completed, Cost per registration, CTR
- **Secondary KPIs:** Landing page views, Video hold rate / thumb-stop rate, Conversion rate from click to registration, Ad Account Sign Ups

Oct Concept 1: The Screen Your Mix Is Missing

Hypothesis: Performance marketers already buying Meta and Google treat CTV as a separate budget meant only for brand awareness. Positioning Roku as the next screen in a mix they already run, rather than a replacement, should lower perceived risk.

CREATIVE SUMMARY: In a split screen, a phone feed scrolls with an ad counter counting up,, while the TV beside it holds one full-screen, sound-on ad that never scrolls away.

MEASURES OF SUCCESS:

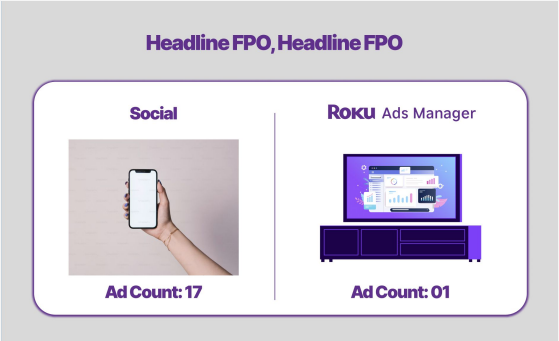

- CTR
- Sign-up

Copy:
Headline: Your ads are on every screen. Except the biggest one.
Subhead: Add TV to the social and search mix you already run. Full screen, sound on, and nobody scrolls past it.
CTA: Add TV to your mix

Oct Concept 2: Finish What You Started (retarget)

Hypothesis: The business goal is moving people from signup to ad account to published campaign. Meta's campaign-publish optimization is already our most efficient setup. Creative written only for people who signed up but never published, with one clear next step, should raise the publish rate and lower cost per published campaign compared with reusing prospecting creative.

CREATIVE SUMMARY: A TV ad sits paused on a Roku screen with a progress bar stuck just short of done, then a cursor taps Launch and the ad plays. It talks straight to people who already have an account and leaves them nothing to figure out.

MEASURES OF SUCCESS:

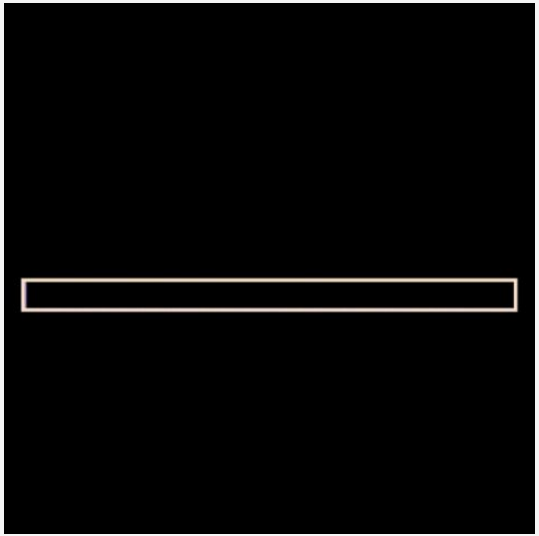

- CTR
- Sign-up

Copy:
Headline: Your TV ad is one click from live.
Subhead: Your account is ready. Upload a video, pick your audience and go live today.sound on, and nobody scrolls past it.

September Concepts (revised vertical focus)

Concept: Off the Treadmill

Hypothesis: If a real operator names the treadmill they're already on (boosted posts, discount codes, linear avails renegotiated every cycle) and then sets up ZIP-targeted TV in the same breath, we can turn the deck's "short-term wins crowd out future demand" tension into a signup from people who think TV isn't for them.

CREATIVE SUMMARY: Creator-style handheld, shot on location: a dealer on the lot, a GM in an empty dining room at 3pm. I They talk through the grind for 6 seconds, then turn the phone to the Ads Manager screen and draw their radius around the business. One script, two cuts, and the vertical swaps live only in the nouns. (t's the same format that produced the account's two most efficient creatives, now with a vertical operator in place of a marketer.)

MEASURES OF SUCCESS:

- Cost Per Signu up
- Signup-to-ad account rate for local-vertical signups

End Slate Language

A. Outsmart the feed. / Shoppable TV ads, connected to Shopify. / Start on Roku Ads Manager

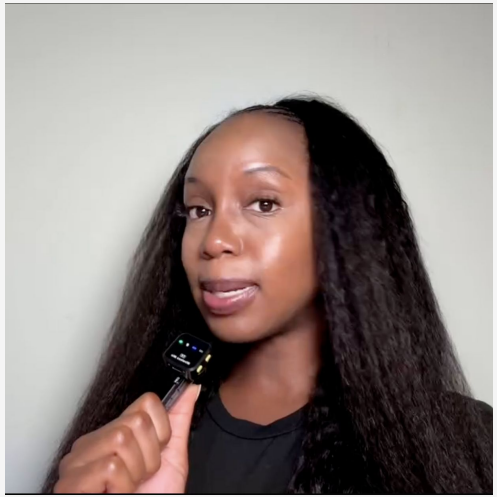

B. Turn the couch into the cart. / Go live and we'll match your first campaign spend in ad credit. / Double your first cart

Concept: Off the Treadmill

Hypothesis: IIf we show CTV from the viewer's side of the screen rather than the advertiser's, we can make Roku's reach feel personal enough to pull a cold prospect off the couch and onto the site — a claim no demo-led competitor creative is currently making.

Script — Restaurant cut, 18s

Every slow Tuesday I'm doing the same thing. Boost a post. Drop a code. It works, for one night.

Then I'm doing it again.

So this time I'm putting us on TV. Just the ZIP codes around this location.
Lower CPMs than social, and I'm reaching the people who aren't here yet.
Your next regular is already streaming.

Auto swap:
Every month I'm renegotiating avails & stacking more social just to cover what linear used to

So this time I'm putting us on TV. Just the ZIP codes around this location.
Lower CPMs than social, and I'm reaching the people who'll need a car in six months, not just this weekend

Your next buyer is already streaming.

Concept: Half A Glance

Hypothesis: If we visualize how little attention a feed ad actually buys and contrast it with a full-screen, shoppable TV moment, animation can make the "half a glance" tension land faster than a founder explaining it.

CREATIVE SUMMARY: Flat, graphic 2D in Roku's purple palette. The hero is a small product box character: the D2C brand's product, generic enough to stand in for any of them. It keeps trying to get noticed in a feed that scrolls past it faster and faster, then gets pulled out of the phone onto a living room TV, where it finally has the whole screen and someone buys it with the remote. The VO stays dry and matter-of-fact, the animation carries the comedy.

MEASURES OF SUCCESS:

- CPL

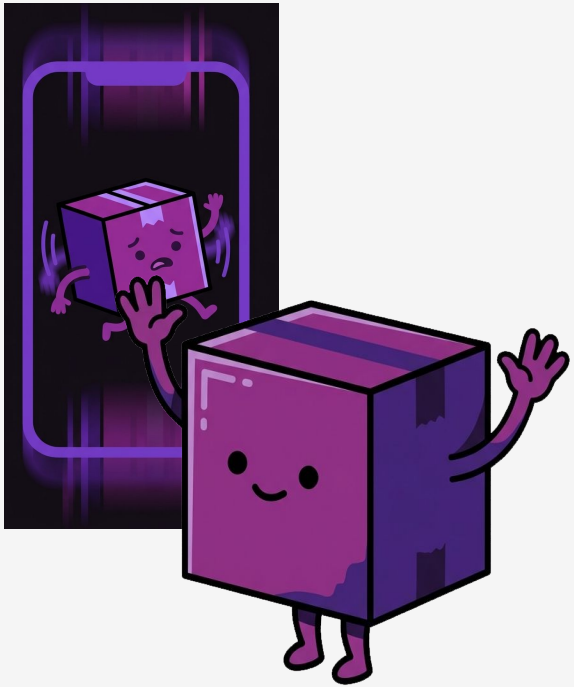

Creative beats & Script

A vertical feed scrolls fast. The box pops up, waves, gets flicked away. A small counter over it reads 0.4s. It pops up again: 0.3s. The scroll speeds up to a blur. The box gets smaller each time it appears, then gets buried under identical boxes. A remote clicks. The box drops out of the phone and lands on a living room TV, filling the screen edge to edge. The counter keeps climbing: 5s, 10s, 15s. A hand on the couch presses OK. A Roku Pay confirmation animates on screen, and a small Shopify dashboard pops up beside it and ticks up one sale.

Roku Ads Manager

Hypothesis:

If we extend the account's most efficient creative by showing the campaign actually going live on camera rather than stopping at the pitch, we can move the same audience further down the funnel and attack sign-up to ad account directly.

CREATIVE SUMMARY: Same creator, same handheld desk setup, same energy as the two cuts already running. The difference is where it ends: this one opens where the current ads close, with her already in Ads Manager, and it plays the build in real time until she hits publish and the campaign confirms live. No cutaways, no motion graphics, no b-roll. The whole point is that nothing is hidden between "I have an idea" and "it's running."

Concept 3: Run Your first campaign (Ad Account Set Up Focus)

Roku Ads Manager

Hypothesis:

If we show signed-up users how simple it is to finish setting up their ad account, they will be more willing to complete setup, deposit money, and launch their first campaign.

CREATIVE SUMMARY: This concept targets users who have already created a Roku Ads Manager account but have not completed ad account setup. The creative removes friction by turning account setup into a simple, guided "Roku 101" experience. Instead of selling the full platform all over again, the ads focus on showing users the next step, why it matters, and how quickly they can move from inactive account to campaign-ready.

Concept 4: Deposit Promo (Ad Account Sign Up Focus)

Hypothesis:

If we pair the deposit promo with Roku Ads Manager's strongest proof points, users who have already created an account will be more motivated to complete setup, deposit funds, and launch their first campaign.

CREATIVE SUMMARY: This concept uses a limited-time deposit promo as the conversion nudge for users who have created a Roku Ads Manager account but have not completed ad account setup or funded their account. The creative combines the offer with practical proof points, showing users that their first deposit does not just unlock spend, it unlocks access to self-serve CTV campaigns built for attention, targeting, and measurable action.

AUDIENCE PERSONA: All audiences who have created a Roku Ads Manager account but have not completed ad account setup, deposited funds, or launched their first campaign.

#1: 3 Reasons / Proof-Led - Blu Dot

CONCEPT SUMMARY & DIRECTION

Concept Summary: Use the Blu Dot success story to give performance marketers three clear reasons to consider Roku Ads Manager. This concept simplifies the case study into a direct, proof-led static or video framework that shows Roku is easy to launch, built to optimize, and proven to scale. It is designed to make Roku Ads Manager feel less experimental and more like a credible performance channel.

Creative: A clean, proof-led "3 Reasons Why" concept that introduces static images with three reasons supported by a short stat or proof point from the Blu Dot story. Visually, the system should feel simple, premium, and easy to scan, using strong type hierarchy, Roku brand cues, and light performance-design elements like stat cards, arrows, funnels, or dashboard motifs.

Deliverables: Meta/LinkedIn Statics (9x16, 4x5)

- **Funnel Position:** TOF + MOF **Persona:** Retail & eComm

#1: The New Frontier - Mobile Marketers LP Ads

CONCEPT SUMMARY & DIRECTION

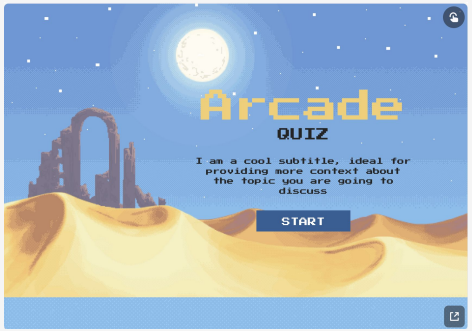

Concept Summary: A high-level campaign concept that frames Roku's interactive landing page as the next frontier for mobile marketers ready to move beyond crowded social environments. The work invites audiences into a guided, educational experience where they can explore the difference between "Planet Social" and "Planet CTV" positioning the landing page as a destination to discover, learn, and navigate.

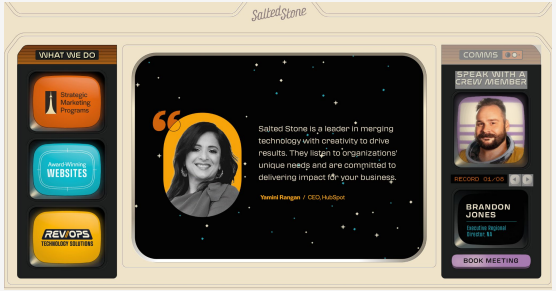

Creative: A campaign system inspired by Roku's 8-bit, space-themed landing page world. The creative should feel like an invitation into a larger experience, using retro-futuristic visuals, pixel-inspired graphics, dashboard cues, and space-exploration framing to spark curiosity. Rather than over-explaining, each ad should introduce a single motivating idea that encourages the viewer to click into the landing page and learn more.**(USING DIRECTION FROM CREATIVE BRIEF)**

Deliverables: Slight motion statics
Format: Meta/LinkedIn (9x16, 1x1),
Funnel Position: TOF
Persona: Retail & eComm

#2: Blu Dot Proof-Led Explainer

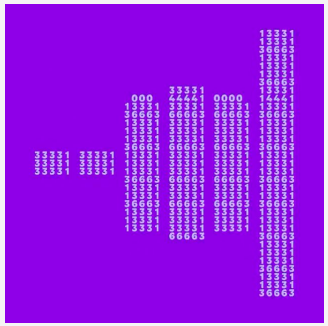

CONCEPT SUMMARY & DIRECTION

Concept Summary: Use the Blu Dot story as proof that Roku Ads Manager is not just a brand-awareness channel, but a measurable performance engine. This concept turns key case-study outcomes into a simple, stat-led explainer that gives mobile and performance marketers a reason to believe Roku can drive real business results.

Creative: A fast-moving, proof-led explainer built around three short reasons to believe in Roku Ads Manager. Use bold stat cards, clean animation, simulated dashboard or Shopify/Roku lockups, and punchy proof points pulled from the Blu Dot case study. The tone should feel confident, modern, and performance-oriented, with each section reinforcing that Roku can help brands test, optimize, and scale. **(USING DIRECTION FROM CREATIVE BRIEF)**

Deliverables: Video

#1: Stay Ready This Summer

CONCEPT SUMMARY & DIRECTION

Concept Summary: A seasonal campaign platform built around familiar summer moments with an unexpected analytics twist. Each execution shows a recognizable character or scenario "on watch," helping dramatize how Roku Ads Manager keeps brands visible, responsive, and ready to capture summer demand on CTV.

Insight: CTV viewership increases in the summer while it's commonly believed it would go down due to people leaving the house.

Visual Direction: A mix of summer moments (The Lifeguard, The BBQ Dad, The Umpire, The Ice Cream Truck, The Crossing Guard) and Roku branding (typography, color palette, logo lockup, etc.).

Deliverables: Meta/LinkedIn Videos (9x16, 4x5, 1x1), YouTube Videos (16x9)

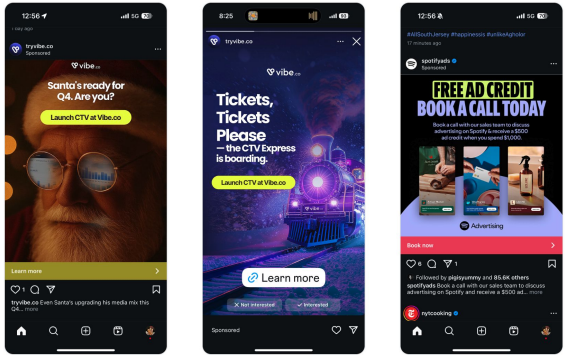

- **Funnel Position:** TOF **Persona:** Retail & eComm

Primary Barrier Tested:

1. Do familiar summer moments paired with simple performance metaphors make Roku Ads Manager feel more memorable, relevant, and compelling at the top of the funnel?
2. Does problem-led or solution-led hooks impact results.

#1: Stay Ready This Summer

COPY & VIDEO DIRECTION

1. The Lifeguard

Visual: Lifeguard in the chair watching a laptop, with dashboards reflected in sunglasses.

Solution-focused hook: Stay visible all summer long.

Problem-focused hook: Don't let summer demand drift away.

Subhead: Keep your brand above water Roku Ads Manager.

2. The BBQ Dad

Visual: Dad at the grill checking campaign metrics while burgers sit on grill.

Solution-focused hook: Keep your Q3 pipeline firing.

Problem-focused hook: Don't let summer demand burn up.

Subhead: Keep summer demand cooking with Roku Ads Manager.

3. The Baseball Umpire

Visual: Umpire behind home plate making a call while checking campaign data on a tablet.

Solution-focused hook: Make the smart call this summer.

Problem-focused hook: Don't strike out with your customers this summer.

Subhead: Make your decision count with Roku Ads Manager.

4. The Camp Counselor

Visual: A camp counselor stands in front of a group holding a clipboard. The clipboard shows campaign charts, audience segments, or simple performance metrics.

Solution-focused hook: Guide demand with more confidence.

Problem-focused hook: Don't lose the crowd this summer.

Subhead: Lead summer attention with Roku Ads Manager.

5. Sandcastle Builder

Visual: A person on the beach carefully building a sandcastle while checking campaign metrics on their phone or tablet.

Solution-focused hook: Keep your brand standing strong this summer.

Problem-focused hook: Don't let your summer campaign wash away.

Subhead: Make waves with Roku Ads Manager.

#2: People Reached Daily

CONCEPT SUMMARY & DIRECTION

Concept Summary: By turning Roku's daily home screen reach into a bold, easy-to-follow counter moment, this concept transforms an abstract audience stat into a clear proof point. The goal is to show retail and eComm advertisers that Roku offers meaningful scale, while presenting that scale in a way that feels branded, memorable, and easy to understand at the top of the funnel.

Visual Direction: Clean, social-first motion system centered around the counting mechanic that builds anticipation. The creative should feel unmistakably Roku through the use of color palette, simple typography, UI-inspired framing, and visual cues drawn from the Roku home screen experience.

Deliverables: Meta/LinkedIn Videos (9x16, 4x5, 1x1), YouTube Videos (16x9)

- **Funnel Position:** TOF **Persona:** Retail & eComm

Primary Barrier Tested:

1. **Customer Attitude:** Does scale-based proof-point spark interest in Roku Ads Manager at TOF?
2. **Visual:** Roku branded counter and background (business/UI focused) vs. Roku cityscape inspired background and counter.

#1: The Stopwatch Test

CONCEPT SUMMARY & DIRECTION

Concept Summary: Directly challenging the assumption that getting on TV takes days or weeks. By visibly timing how long it takes to go from campaign creation to publish inside Roku Ads Manager, the concept reframes TV advertising as something that can happen in minutes, not months. Rather than making claims about ease, Roku shows the process in real time to replace skepticism with proof.

Visual Direction: Screen recording of the Roku Ads Manager as the primary visual with a VO from a UGC creator. Motion design is minimal and functional, guiding attention without distracting from the interface. The tone is transparent and confident, positioning Roku as a platform comfortable showing the truth of the process.

Deliverables: Meta/LinkedIn Videos (9x16, 4x5, 1x1), YouTube Videos (16x9)

- **Funnel Position:** MOF **Persona:** Retail & eComm

Test Variations:

Hooks:

Hook 1 (Discovery): "We put getting on CTV to the test."

Hook 2 (Breakthrough): "Turns out, CTV moves faster with Roku Ads Manager."

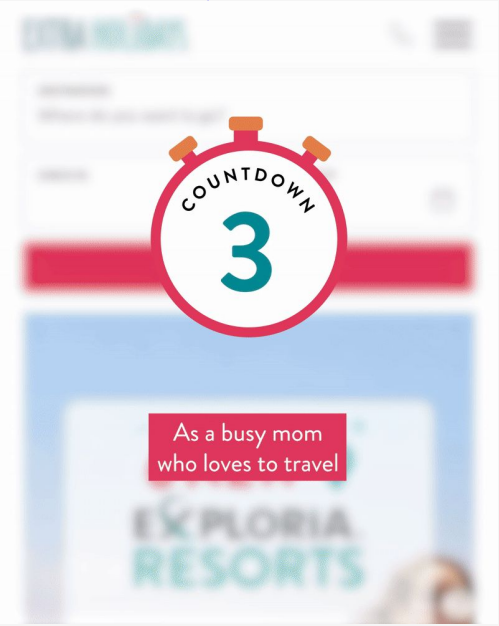

Execution:

VA: Stopwatch pauses briefly to spotlight key platform actions

VB: Stopwatch runs uninterrupted to emphasize momentum

Primary Barrier Tested: Time and perceived setup friction

#2: You're Closer Than You Think

CONCEPT SUMMARY & DIRECTION

Concept Summary: Challenges the assumption that CTV advertising is a future-stage channel reserved for bigger brands. By reframing CTV as an extension of familiar digital marketing behaviors, the concept shows that marketers are already qualified for CTV. **Roku Ads Manager is positioned as the bridge that turns existing intent, audiences, and performance mindset into CTV action.**

Visual Direction: Creator-led, premium, and restrained. Natural environments with calm, confident delivery. Minimal overlays used selectively to reinforce clarity and education without clutter. The tone feels reassuring and precise, positioning Roku Ads Manager as an enabler for businesses to grow.

Deliverables: Meta/LinkedIn Videos (9x16, 4x5, 1x1)

- **Funnel Position:** MOF **Persona:** Retail & eComm

Test Variations:

Hooks:

V1 (Reassurance): "You're closer to CTV than you think."

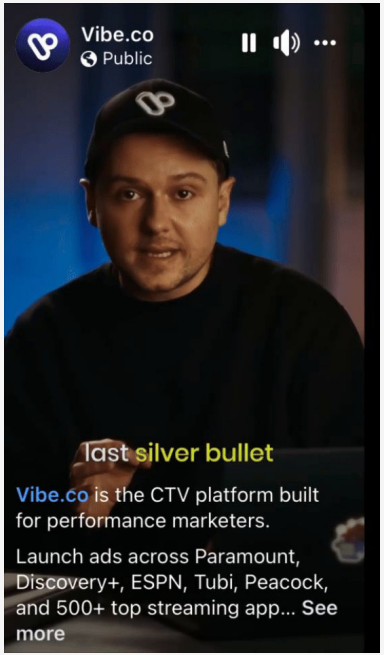

V2 (Reframe): "CTV isn't out of reach. It's just misunderstood."

V3 (Authority): "The brands winning on CTV aren't always the biggest ones."

V4 (Familiarity): "If you know digital, you already know CTV."

Primary Barrier Tested: CTV advertising is inaccessible or "out of reach" for performance-minded marketers.

#1: From Story To Sale

CONCEPT SUMMARY & DIRECTION

Concept Summary: Turns the **LolaVie founder story into a performance narrative.** It shows how Roku Ads Manager helped LolaVie **lead with authenticity and premium storytelling, while converting that story into measurable business outcomes.** The creative **positions Roku Ads Manager as the bridge between brand storytelling and performance, proving that TV can drive both emotional connection and real results.**

Visual Direction: A founder-led, premium execution using existing LolaVie case study footage and Roku Ads Manager brand assets. The video cuts between **Jennifer Aniston interview moments**, **LolaVie product and living-room TV scenes**, and **Roku-branded purple stat cards** that highlight performance results. Key metrics (e.g., *8.1M households reached, +40% lift in sales, +53% new customers*) appear as **large, bold numerals** in clean graphic frames, placed beside LolaVie visuals for clarity. Motion is minimal and purposeful, using subtle fades and wipes aligned with Roku's UI style. The video closes with a **co-branded LolaVie x Roku Ads Manager end frame**, **reinforcing the link between founder storytelling and measurable business impact.**

Deliverables: Meta/LinkedIn Videos (9x16, 4x5, 1x1), YouTube Videos (16x9)

- **Funnel Position:** MOF **Persona:** Retail & eComm

Test Variations:

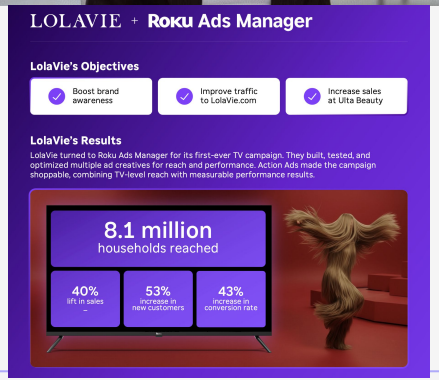

Hook Slide 1 (LolaVie Brand-Led): "Telling a brand's story matters but driving real results matter just as much."

Hook Slide 2 (Results-Led): "8.1 million impressions. 53% increase in new customers. 40% lift in sales. Real growth, fast."

Testing Question: Does a brand-led story opening outperform a results-first opening in driving engagement and consideration for Roku Ads Manager?

#2: Proof at a Glance

CONCEPT SUMMARY & DIRECTION

Concept Summary: This concept distills the **LolaVie partnership into a single, instantly recognizable proof of performance.** It strips away narrative and focuses on outcomes, **showing how Roku Ads Manager delivers premium TV reach with measurable business impact.** Designed for moments when decision-makers want validation fast, this positions Roku Ads Manager as **a credible, performance-driven alternative to traditional TV advertising.**

Visual Direction: High-contrast static frames built around single proof points. Each execution **highlights one clear outcome (reach, efficiency, performance lift), paired with minimal branding and clean typography.** The creative **favors simple layouts, large numbers, and confident statements that can be understood in under two seconds while scrolling.**

Deliverables: Static Images Meta/LinkedIn (9x16, 4x5, 1x1), *Carousel and single-frame executions*

- **Funnel Position:** BOF **Persona:** Retail & eComm

Test Variations:

Competitor Landscape

Vibe.co

- **Vibe.co strikes a balance between social/device native ads and speaking the b2b language.**
  Main messaging tactics include social native, industry focus, and seasonality. Some ads take more traditional b2b approaches with lead magnets or webinar promotions and high production spots.

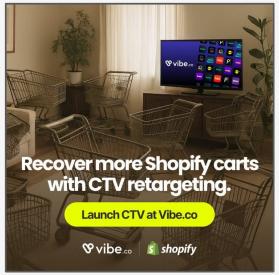

- **Social Native:**
  Use of google maps, email, AirDrop, and other device and social native applications

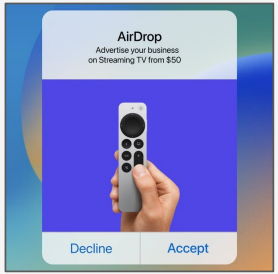

- **Other Scroll-stopping:**
  Ads that aren't social native but use scroll-stopping imagery such as pill bottles of out-of-home placements.

- **Seasonality:**
  Emphasis on holiday season with Christmas-themed statics

- **Brand Callouts:**
  Ads call out Shopify or other recognizable b2b partners by name and show logos

- **Talk the Talk:**
  Video hooks open with industry language: i.e "We wanted to fuel our top of funnel" and straightforward static headlines speaking to main advertising careabouts. Traditional b2b marketing can also fit in here with lead magnets and webinar invites.

#1: Slack Convo Animation

CONCEPT SUMMARY & DIRECTION

Concept Summary: Since UGC has consistently been one of our top-performing formats across platforms, we're leaning into a concept that mimics a real conversation between two media buyers on Slack. They'll be discussing a recent media buy with Roku. With this execution, we aim to test which creative hook and ad credit messaging drives the highest engagement and audience conversion.

Deliverables: Meta/LinkedIn UGC Video

- **Funnel Position:** Retargeting **Persona:** Digital-First

Test Variations - Hooks, Body Script:

V1: Evergreen - "I saw our ad on Roku - are we doing CTV ads now? How??"

V2: Black Friday (look at blog post) - "What's our Black Friday strategy, can we do CTV?"

Bubble Messaging:

Line 2: [V1] That was me! [V2] Yes! Launched our first CTV campaign yesterday 🎬 Running it directly through Roku's self-serve platform

Line 3: What?? Did it take forever to onboard?

Line 4: No, super easy - plus, I got extra $$ with their ad credits.

Line 5 And we didn't need an agency?

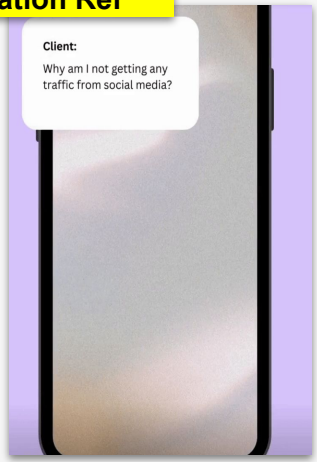

Line 6: Nope. Built it in-house. Uploaded a 15s social video we already had, hit launch ✅

Line 7: Ok, this is 🔥🔥. Let's double down.

#2: Black Friday UGC

CONCEPT SUMMARY & DIRECTION

Concept Summary: This UGC concept features an agency buyer sharing how they quickly launched a Black Friday CTV campaign through Roku's self-serve platform. It highlights speed, ease of use, premium inventory, and a limited-time ad credit to drive urgency and adoption.

Deliverables: YouTube UGC Video Bumper - 7s (16x9), Meta/Linkedin Video (9x16, 1x1)

- **Funnel Position:** MOFU
- **Persona:** Digital-First

Visual Direction: Direct-to-camera UGC featuring a media buyer in a casual-professional setting, paired with light motion graphics and on-screen text to highlight ease, speed, and the limited-time Black Friday ad credit.

Hook Iterations:

V1: Holiday campaigns start now.

V2: We just got our Black Friday CTV campaign live in under an hour. No joke.

Base Script Messaging:

Needed to launch a CTV campaign for Black Friday – fast. I used Roku's self-serve platform, uploaded our creative, picked the audience, and we were live in under an hour. Premium inventory, no middlemen – and there's even an ad credit right now. Don't wait.

    - V3 Opened with the hook "it's the easiest way to get your brand on the big screen"
- Second top performer was Testimonial UGC V3, right behind "Social Ads Missing This" with high impressions, clicks, and 1 conversion
    - V3 opened with the hook "Did you know that nearly half of US TV streaming time is on Roku?"
- Three of Four top-performers were UGC ads

LinkedIn Retargeting

- Top 2 performers were Testimonial UGC, both with similar hooks
    - V2: 47% of US TV streaming time
    - V3: Nearly half of US TV streaming time
- Fourth top performer "Social Ads Missing This" UGC opened with hook "What if your next social ad was on TV"
- "Simplified CTV" V1 has the hook "Reach audiences wherever they watch"
- Many retargeting top performer hooks communicate the efficacy of reaching viewers with Roku

Creative Takeaways: June 2025

YouTube Awareness:

Ad Creative	Impressions	Views	Clicks	CTR
Reach 6s	3,262,521	3,117,931	3,063	0.09%

Reach 6s	539,144	5,722	1.06%	25	$255.67

Top Performers:

YouTube Awareness:

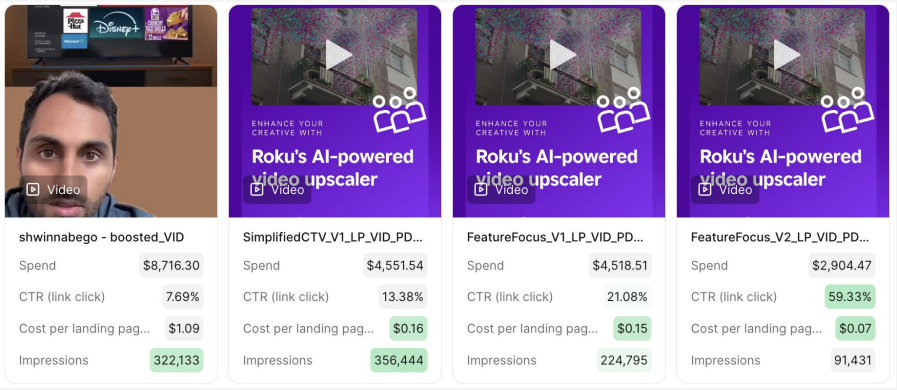

- Top performer opens with copy “Roku Ads Manager puts Roku’s reach within your reach” continuing the theme seen on Linkedin of finding success with messaging about Roku’s ability to reach audiences
- UGC has rose to be the third and fourth top performer on YouTube, but did not scale nearly as much as the 6s ads

YouTube Prospecting:

- Top performer was PDM UGC with high impressions, clicks, and conversions
    - V2 opens with hook “What if your next social ad was on TV?”

Creative Takeaways: June 2025

Meta:

Top Performers:

- Top scaling ad is boosted influencer ad with talent delivering a personal story about discovering Roku Ads Manager with a genuine, almost monotone voice
    - This kind of delivery is rising as a trend as audiences more quickly recognize and tire of over-the-top salesy UGC testimonials
- High CTR ad is Feature Focus V2 which opens with the hook “Take performance to the next level with CTV advertising”

#1: Ad Credits UGC

CONCEPT SUMMARY & DIRECTION

Concept Summary: Support LinkedIn Retargeting with a brief UGC ad highlighting Roku Ads Manager's ad credit promotion. Since we have evidence that UGC works on LinkedIn in the lower funnel, support this effort with a UGC ad that has a direct response message.

Deliverables: Meta/LinkedIn UGC Video (9x16, 4x5)

- **Funnel Position:** Retargeting **Persona:** Digital-First

Test Variations - Hooks, Body Script:

V1A: Hook 1, $500 ad credit
V1B: Hook 1, $1000 ad credit
V2A: Hook 2, $500 ad credit
V2B: Hook 2, $1000 ad credit

V1: It's easier than you think to get your brand on TV.
V2: What if you could get a spend credit to run ads on TV?

Script:

I recently learned that Roku's self-service ad platform is offering a $500/$1000 ad credit when you spend $500/$1000. Roku is where TV happens, I mean nearly half of US TV streaming time is on Roku., and Roku integrates with Shopify so your ads are shoppable, even though they're on TV. It's the future, guys. So do what I did and take advantage of this deal now!

#2: UGC Bumper: Reach

CONCEPT SUMMARY & DIRECTION

Concept Summary: With UGC performing well in YouTube Prospecting, and 6s videos still outperforming in Awareness, create a UGC Bumper made for YouTube (filmed in 16x9) using top-performing messaging across LinkedIn and YouTube: Reach.

Deliverables: YouTube UGC Video (16x9), Meta/Linkedin Video (9x16, 1x1)

- **Funnel Position:** Prospecting
- **Persona:** Digital-First

Visual Direction: UGC Creator delivering line to-camera with Roku Ads Manager branded subtitles in 16x9.

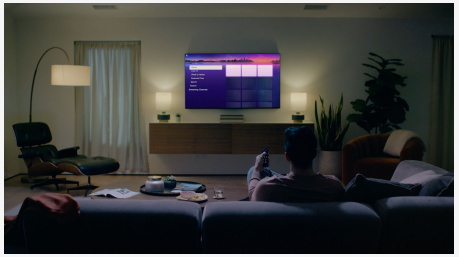

Test Variations: 3 different 6s scripts, see below.

Script: V1: What if you could reach nearly half of US TV streamers through a click of their Roku remote?
V2: Reach nearly half of US homes with Roku Ads Manager.
V3: Get your social ad on TV with Roku Ads Manager.

#3: Brand Video Cut Down

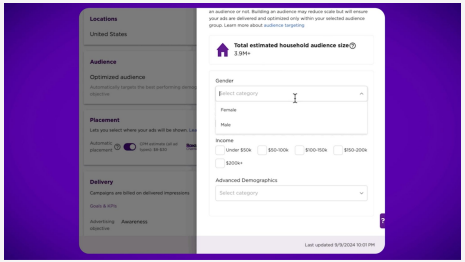

CONCEPT SUMMARY & DIRECTION

Concept Summary: Promote the ads manager version of the brand video, plus thoughtful cutdowns for paid social, and other footage from overall brand video shoot.

Deliverables: YouTube videos (2 15s, 1 6s - 16x9), Meta/Linkedin resizes (9x16, 4x5)

- **Funnel Position:** Prospecting
- **Persona:** Digital-First

Visual Direction: Use the same footage and overall messaging of the existing brand video, considering thoughtful crops for paid social. Focus on Ads Manager messaging.
Note: Remove any visuals focused on the Roku Homescreen ads, as shown in the second screenshot. We only offer video ads and want to make sure that is clear.

Test Variations:
V1 - open with Roku (like 30s cut)
V2 - open with Ads Manager

#3: Personal Story UGC

CONCEPT SUMMARY & DIRECTION

Concept Summary: Follow Meta's June top performer, as well as trends in the space, to create a new UGC delivered with a genuine, monotone testimonial. Emphasize a personal story and making the script sound real.

Deliverables: YouTube UGC Video (16x9), Meta/LinkedIn UGC Video (4x5, 9x16)

- **Funnel Position:** Awareness / Prospecting
- **Persona:** Digital-First

Visual Direction: UGC Creator delivering a to-camera testimonial in a casual setting (couch, living room, etc) then green screened over Roku Ads Manager.

Test Variations: Hooks: V1: "I'm a freelance media buyer and my clients needed a new platform."
V2: "My clients needed to reach more people with their ads"
V3: "What if you could reach nearly half of US TV streamers with yours ads?"

Script [post hook]: There's only so much reach you can get with social media ads. I never thought I'd be able to offer them TV ads, but I found Roku Ads Manager. It's self-serve and integrates with Shopify, so you can target all the same KPIs like ROAS. It's super easy, and you can start for as low as $500, so check it out!
[bumper version] I'm a media buyer and my clients needed Roku Ads Manager.

Creative Takeaways: May 2025

Meta - Top Scaling:

Meta - Top CTR, efficient CPLPV:

Top Performers:

Meta:

- New ads launched mid-may have strong starts
  - "Social Ads are Missing THIS" currently driving high CTR with V2 performing slightly better. V2 has the hook "What if your next social ad was on TV?"
  - Toggles V1A is right behind it with the headline "Get Started with Roku Ads Manager Today"
- Early performance continues to indicate that UGC is favored by the Meta audience
- Early performance for Toggles indicates that other native treatments have promise in the Roku Ads Manager account

#1: Comment Response

CONCEPT SUMMARY & DIRECTION

Concept Summary: Follow our creative learning of UGC performing on paid social and native treatments showing strong early results. Combine these into a popular “comment response” format. Use the top-performing hook from the “Social Ads Are Missing This” UGC.

Deliverables: Meta/YouTube UGC Video, Meta/LinkedIn Static (1x1, 9x16, 16x9)

- **Funnel Position:** Consideration
- **Persona:** Digital-First

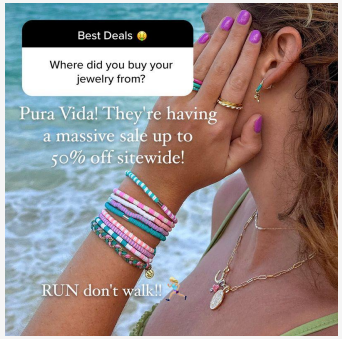

Visual Direction: UGC Creator replying to a comment that appears platform-native. Use either UGC video or UGC-style copy overlay to answer the question.

Test Variations:

#1: Comment Response

MESSAGING/SCRIPT

Script - UGC:

[Intro 1] How can you get your TikTok ad on TV? I always get this question!

[Intro 2] You DO have time to run CTV ads!

If you're already running social ads, getting them on TV is way easier than you think. Just use Roku Ads Manager to easily create an ad and start running it directly on TV, just log in and start running ads directly on Roku. It's a self-serve platform, so you can launch and optimize campaigns right where your audience is already watching: on Roku. It's seriously one of the smartest adds to a digital strategy I've made. Try it today!

#2: Performance Motion Graphic

CONCEPT SUMMARY & DIRECTION

Concept Summary: Refresh our Motion Graphic Ads like “Simplified CTV” and “Feature Focus” which saw high scaling and performance on Meta. Focus this concept on the ad performance the audience can drive with Roku Ads Manager.

Deliverables: LinkedIn/YouTube Video (16x9), Meta Video (9x16, 1x1)

- **Funnel Position:** Awareness
- **Persona:** Digital-First, Local & Small Business Owners

Visual Direction: Take inspiration from the dynamic motion-graphic led ads that have performed on Meta and create a new motion graphic ad with a similar treatment. This concept will be a new motion graphic treatment, not a remake of the same motion graphic already existing. This will contribute to visual diversity and freshness in accounts.

Copy:

#3: Retargeting Static Set

CONCEPT SUMMARY & DIRECTION

Concept Summary: Support our low-funnel campaign with new retargeting statics. Create a dynamic static set with a variety of tried and true layouts.

Deliverables: 4 Meta/Linkedin Statics (1x1, 9x16, 16x9), Reddit Static 4x3

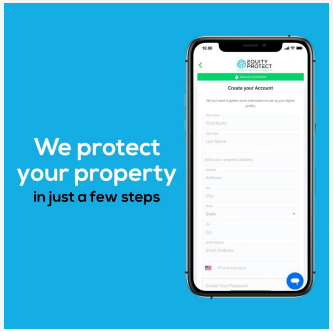

- **Funnel Position:** Retargeting
- **Persona:** All

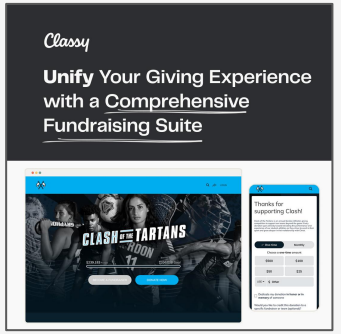

Visual Direction: Follow the references to create 4 differently laid out static ads:

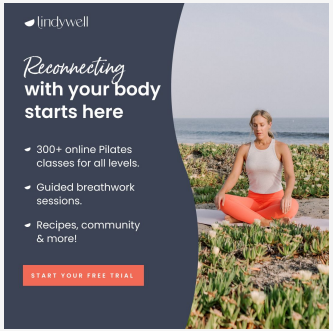

1. Device screen - feature the Roku Ads Manager UI on a computer screen with the headline "Get Started with Roku Ads Manager Today"
2. Split Screen - the top half uses a bold headline (same as above) and the bottom half shows UI examples with positive performance
3. Bullet Points - bold headline (same as above) followed by bullet points, alongside a lifestyle image
4. Copy only with Roku Ads Manager branding

Bullet Point Copy - Two versions for testing.

#1: Insider Secret

CONCEPT SUMMARY & DIRECTION

Concept Summary: Follow the success of UGC on paid social with another UGC iteration. Position this one as the creator letting the audience in on their secret to advertising success: Roku Ads Manager.

Deliverables: Meta/Linkedin Videos (4x5, 9x16)

- **Funnel Position:** Prospecting & Consideration
- **Persona:** Digital-First Brands

Visual Direction: Use social-native copy overlay with a Roku purple highlight. Creator should be at a desk or with a computer.

Test Rationale:

Hook test: emphasizing the secret vs emphasizing reaching audiences (based on top performer)

Body test: Include 46% of US TV streaming time as second line, vs omit for shorter ad

Copy:

Hook A: Here's my insider secret for digital advertising success: Roku Ads Manager

Hook B: Here's my insider secret for reaching CTV audiences in the digital age: Roku Ads Manager

V1: Include this line next: "Did you know that 47% of US TV streaming time is on Roku?"

Body: With Roku, I can target my audience where they're already streaming. I just use their easy-to-use self-service ad platform and optimize based on their performance insights. I got started for just $500, and you can too. Go ahead and get started now.

Our Strategic Approach

April Creative

Creative Takeaways: March 2025

Feature Focus V1
CPLPV: $0.20

Testimonial UGC V3
CPLPV: $0.27

Top Performers:

- March Top Performer was a PDM creative, “Feature Focus V1”
  - V1 opened with the hook “Small businesses can do BIG things on CTV”
  - Beat other hooks which were:

V2: Take performance to the next level with CTV Advertising
V3: CTV is Key for your KPIs
V4: Reach in-market audiences for your products with Roku Ads Manager

  - Next steps: Consider more small business-focused creative
- “Testimonial UGC V3” was the second March top performer opening with the “nearly half of US streaming time is on Roku” hook
  - Other hooks were:

V1: If you’re worried about testing CTV ads for your business
V2: 47% of US TV streaming time is on Roku

- This shows strong promise for UGC ads in the account, as well as the “nearly half of US streaming time” stat social proof

#1: CTV Made Simple

CONCEPT SUMMARY & DIRECTION

Concept Summary: This concept walks small business owners through **three simple, high-impact steps** that highlight how Roku Ads Manager helps them reach audiences, run campaigns, and drive results without complexity or high spend. It **positions Roku as the CTV growth engine for SMBs,** delivering premium reach and performance on their terms.

Deliverables: Meta/Linkedin Videos (4x5, 9x16)

- **Funnel Position:** Prospecting & Consideration
- **Persona:** Small Business Owners

Visual Direction:

Hook: Bold copy enlarging as it appears, following the high performance of Feature Focus V1's hook, along with a line graph going up to show business growth

Scene 1: Lifestyle video of people and families watching Roku.

Scene 2: Follow the Total Human example with a transparent purple overlay and use copy overlay and iconography to depict targeting by location, interest, and behavior

Scene 2: Highlight the fast setup with a loading bar loading to 100%, then a checkmark to show the campaign is live.

Test: SMB audience motivator: impact on business performance vs self-service platform not requiring a large team

Copy:

Hook A: Roku Ads Manager can have a BIG impact on your small business.

Hook B: You don't need a big team to advertise with Roku Ads Manager.

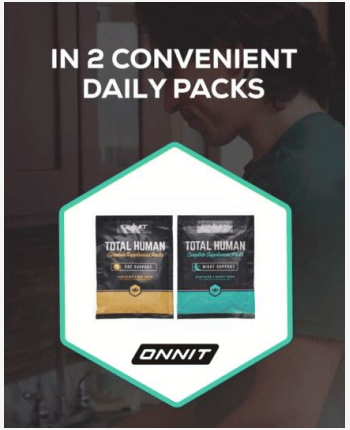

Expand your business' reach: Nearly half of US streaming time is on Roku.

Body copy [same for both]: Target by location, interest, and behavior: no guesswork, just precision. Set your budget, upload your ad, and you're live. It's that simple.

End card: Try Roku Ads Manager

#2: Review

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? Can reviews motivate the mid-funnel audience to click through to learn more about Roku Ads Manager?

Concept Summary: Reviews are a powerful social proof often used in b2b ads to encourage trust and engagement.

- **Deliverables:** Meta Videos (4x5, 9x16), LinkedIn Videos (16x9, 1x1)
- **Funnel Position:** Consideration

Visual Direction: Follow the references to create a dynamic video highlighting a review with moving elements in the background. Rather than a video background, use motion graphics in Roku purple.

Test: Quotes Featured:

Copy:

V1: " Roku Ads Manager's easy-to-use streaming ad platform got our campaigns live in minutes, and the performance was strong at both the top and bottom of the funnel. And their always-on support made a huge difference." - Minghua Hou, Director of Paid Media at MRCOOL

- **Persona target fit:** Small Business Owners, Regional Advertisers
- **USPs featured:** easy-to-use, campaigns live in minutes

V2: "This platform has enabled us to connect with net new audiences, all while keeping our direct response objectives front and center." - Alex Start, Co-founder & CMO at OGEE

- **Persona target fit:** Small Business Owners, eCommerce, Digital-First Expanding
- **USPs featured:** connect with new audiences

V3: "CTV is a rapidly expanding category, and Roku is uniquely placed to provide new incremental ad inventory to reach new audiences. A consistent CTV presence tends to generate stronger CVR over time. With Roku's ability to connect with relevant demographics - it just makes sense to have Roku part of the CTV mix." - Louis Chong, Paid Acquisition Manager at Acorns

- **Persona target fit:** Digital-First Expanding
- **USPs featured:** incremental ad inventory, new audiences, stronger CVR over time

#3: Product Demo

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? Will leveraging product demo video help engage our audience?

Concept Summary: Leverage product demo screen recording (Nik Sharma) as the foundation for an ad. Hone in on main prop values/features showcased in the video and cut down into a compelling visual format.

- **Deliverables:** Meta/LinkedIn Videos (16x9, 4x5)
  Funnel Position: Awareness
- **Personas:** All

Visual Direction: Take the screen recording video and place it into a Roku branded design format. Input a bold headline that speaks to the specific feature being talked about and add captions to drive home what Nik is talking about.

Test/Copy Angles: Features/Prop Values

V1 - Vertically Integrated

Headline: Reach Your Target Audience with Roku 🎯
Clip: Use 2:41 - 2:59 (cut down to 15-20 seconds)
Endcard: Join the CTV Revolution.
CTA: Learn More.

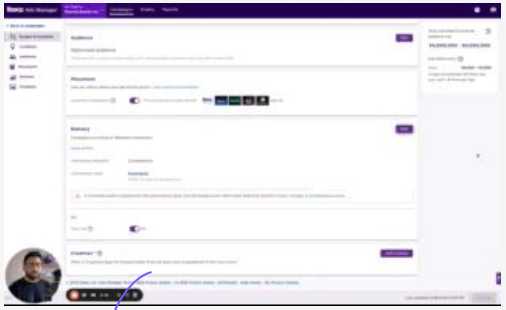

V2 - Action Ads

Headline: Discover the Power of Action Ads – Only on Roku 💬
Clip: Use 4:31 - 7:06 (cut down to 20-30 seconds)
Endcard: Join the CTV Revolution.
CTA: Learn More.

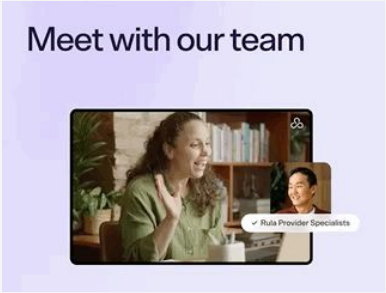

V3 - Roku is the future!

Headline: Roku Just Made CTV Ads Easy in 2025 🤯
Clip: Use 7:58 - 8:11 (cut down to ~10 seconds)
Endcard: Join the CTV Revolution.
CTA: Learn More.

#1: Stats

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? Can statistics motivate the mid-funnel audience to sign up?

Concept Summary: Presenting statistics is very compelling to the business audience looking to benefit their bottom line. Create a variety of statistics-driven statics to run in the mid-funnel targeting our consideration audience on paid social. This is a top-performer in the b2b space across industries.

- **Deliverables:** Meta Videos (4x5, 9x16), LinkedIn Videos (16x9, 1x1)
- **Funnel Position:** Consideration
- **Persona:** All

Visual Direction: Follow the references to create a branded statistics-driven light motion video ad. Use motion to capture the mid-funnel audience and draw attention. Animation will consist of moving and appearing copy on the ad.

Test: Single stat vs multiple stats

Copy:

#3: Dynamic Footage

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? Can engaging visuals hook viewers to raise awareness about Roku Ads Manager?

Concept Summary: Introduce and explain Roku Ads Manager's main USPs over eye-catching stock footage with dynamic editing styles. Use grids, glitches, and boomerang styles to transform stock imagery into a modern and eye-catching format.

- **Deliverables:** YouTube Videos 16x9 (:06s, 15s)
- **Funnel Position:** Awareness
- **Personas:** All

Visual Direction: Follow the reference with text overlay and AI VO to communicate the main benefits of Roku Ads Manager

Test: 2 length cuts (6s, 15s)

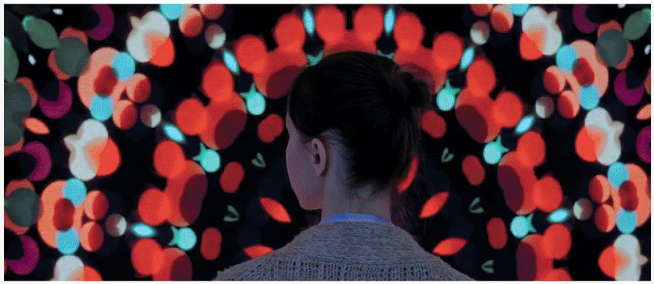

Copy & VO Script - 15s:

#1: BOF Static

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? How can we drive action from business owners or advertisers looking for a simple, high-performance way to run CTV ads?

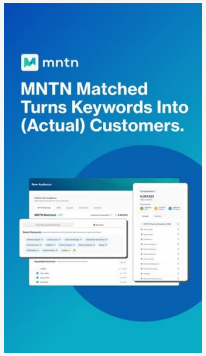

Concept Summary: A static, high-impact visual emphasizing how Roku Ads Manager helps brands and encourages direct action (new sign-ups).

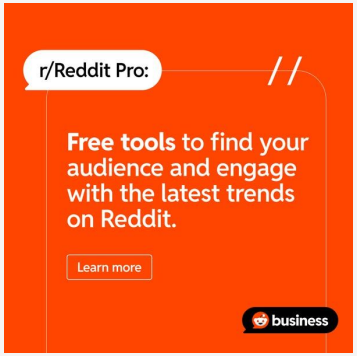

- **Deliverables:** Meta Static (4x5, 9x16), LinkedIn Static (16x9, 1x1)
- **Funnel Position:** Retargeting
- **Persona:** All

Visual Direction: An eye-catching and elevated Roku-branded design that stands out on social. Strong, concise headline reminding the audience that CTV is the next big ad channel accessible to them.
Visual Test: Add UI like MNTN example

Copy - Headline Test:
V1: "Reach Customers Where They Stream Today"
V2: "Measure and Optimize CTV Campaigns Now"

#2: Toggles

CONCEPT SUMMARY & DIRECTION

Question we are trying to answer: How can we quickly communicate the USPs of Roku Ads Manager to a consideration audience, pushing them down the funnel and closer to signing up?

Concept Summary: Using a native toggle UI style that we adapt to Roku's brand colors (as seen in Plum Guide's ad), we highlight key benefits of Roku Ads Manager. This trending and device-native format has proven to be effective on Meta.

- **Deliverables:** Meta Light Motion Video (4x5, 9x16)

Visual Direction: Toggle-style benefits switching on one by one with Roku branding over a cycling background image that relates to the theme of the toggles.

#3: Your Social Ads Are Missing This

CONCEPT SUMMARY & DIRECTION

What are we trying to answer? Can we reframe CTV advertising as a must-have channel for upper-funnel digital advertisers or business owners already running paid social ads?

Concept Summary: UGC approach to grab attention and position Roku CTV as the missing piece in an advertiser's mix.

- **Deliverables:** Meta UGC Video (4x5, 9x16)
- **Funnel Position:** Prospecting
- **Persona:** Digital-First Brands

Visual & Copy Direction: UGC creator speaking to-camera about the benefits of CTV in a professional setting:
"You already run social ads. But what about running ads on TV? You don't have to go through a confusing media buying process - just use Roku Ads Manager! It's a self-service platform that lets you run and optimize CTV campaigns where your audience is already watching: on Roku. It's a great addition to your digital marketing mix with a huge impact."
CTA: "Try Roku Ads Manager Today"

Testing Variations: Hook Variants:
V1: "Your ads are stuck on small screens. Let's fix that."
V2: "What if your next social ad was on TV?"
V3: "The easiest way to get your brand on the big screen."

Concept 1

Simplified CTV

What are we trying to answer:

- How can we use Roku's strong branding to engage users and demonstrate that **Roku Ads Manager removes the complexity of TV advertising?**

Concept Summary:

- Create a dynamic motion graphic showing appearing and spinning visuals inspired by the Roku Ads Manager UI. Tell the story of how a business can quickly and easily set up their first Roku Ad campaign, emphasizing the low barrier to entry and simplicity of the process.
- Prospecting funnel position

Visual Direction:

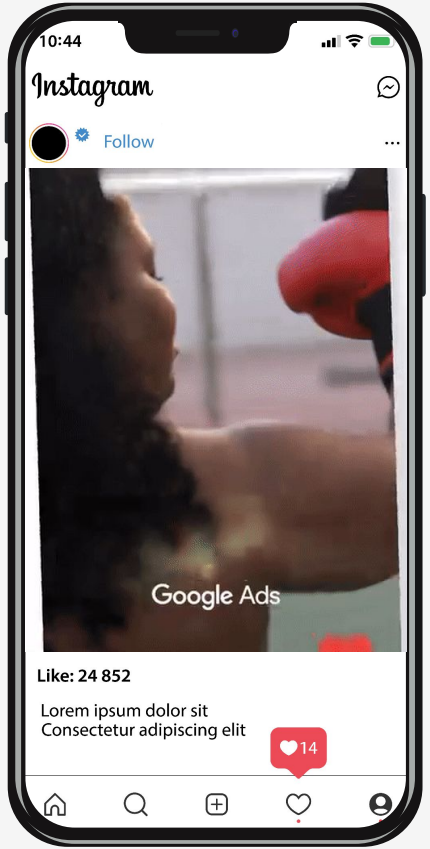

- Follow the Google reference with **popping up icons, UI and brand elements.** Dynamically move them across the screen from point to point. Follow the reference to show video examples as well, in the Roku ecosystem. Conclude with a strong CTA.

  CTA: "Start advertising on Roku for just $500."

  Overlay Graphics: Highlight key features like "Geo-Targeting Made Easy" and "Easily set up and run CTV campaigns.."
